Thursday last the car used as a telegraph station at Wallapai was destroyed by fire. The car was also used as sleeping quarters by the lady operator, who escaped from the burning structure in her night clothes, all her belongings being destroyed.

We understand that a company of railroad men have ordered a large drilling plant and will soon spud in on a deep well in Wallapai valley. The belief appears to be general that water will be obtained in quantity at many points in the valley.

Blaine Crozier has taken about 400 head of feeders to the ranch of Harry LeClair, near the old Mcracken mine where they will be kept on pasture for a month or two. It is expected to fatten the cattle at that place preparatory to driving them to market at Needles.

The Kingman Electric company is now handling an electric iron that is really one of the most economical now in use. Next week they will present to the public the good points of the iron, so that all interested may learn what they are missing by not using it. The iron is on exhibition at the electric shop on Oak street.

Kayser & Wilson have purchased the cattle and range of the Martin brothers, paying therefor the sum of 25,000\$. The boys also have bought a large spring of Wm. E. Frost for which they paid the sum of 3,000\$. The boys are hustlers and it will be but a short time when they will be numbered among the largest cattle owners of the county.

Last Thursday night the railroad round house at Barstow was burned and sixteen locomotives were badly damaged. This is the second fire that has occurred on the Santa Fe this month, the first one being at Seligman, where eleven locomotives were damaged, making a total of twenty-seven locomotives put out of commission by the two fires.

Miss Helen Noli was married to John E. Streater, in Los Angeles, on the 10th of this month. The young couple will reside in the Angel City. Mrs. Streater is well known in this county having been reared from childhood in Kingman. Mr. Streater was for a while employed at the Kingman garage. The young people have the best wishes of the community for a life of married bliss.

The Goldroad-Oatman team played ball in Kingman last Sunday. The boys are all miners and mill men of the camps and can play ball some. Kingman people are always ready to welcome the boys from the camps and hope that they will come often. Friendly games with the teams of the various mining camps should be encouraged, and that there be no friction in the games, visiting teams should bring their umpires with them.

St. Charles Residence Burns.

This morning about six o'clock the residence of Kean St. Charles, on Oak street, was discovered to be on fire and within a short time was entirely consumed. The family had barely time to pick up a few articles of clothing and get out before the flames enveloped the whole structure. The fire originated in the kitchen, where one of the young children had built the fire, Mr. St. Charles having gone to his office. The building was owned by J. H. Johnson and there was no insurance. Mr. and Mrs. St. Charles lost a fine piano, all their furniture and practically all their clothing.

By a concerted effort on the part of the boys that got to the fire early the Martinez buildings were saved, but the residence of John Hamilton was badly damaged by fire and water. By the use of a big chemical the fire was smothered out after it has burned through one side of the building and was burning fiercely in the roof. The damage to this building will amount to several hundred dollars.

Carrow-Wright Wedding.

Last Sunday afternoon, at the residence of the bride's parents, in Kingman, Miss Josephine Carrow was united in marriage to J. B. Wright. Rev. Father Connelly of the Catholic church performed the ceremony. Only the immediate relatives and a few personal friends were in attendance. After the ceremony the happy couple departed to Los Angeles, where they will spend the honeymoon, going from there to Tucson, where they will make their home.

Mr. Wright is a well known civil engineer of Arizona, while Mrs. Wright has resided in this county the greater part of her life. The couple have the best wishes of a wide circle of friends for a long and happy married life.

Everybody Decorate.

The Fourth of July decorating committee are requesting all business houses to decorate their places of business so that the town will make a good appearance on the dates of the forthcoming celebration. All property owners should also clean up their premises and give the town a neat and tidy appearance. By a small amount of work even the trees in and around the town can be decorated and made to add greatly to the picturesqueness of the occasion.

Last Monday evening while a number of boys were playing ball at the grounds in the west part of town a batter allowed his bat to fly out of his hands striking Stanley George in the face, knocking him senseless. The little fellow was taken to his home, where a physician was called and by hard work the boy was returned to consciousness. A number of stitches had to be taken in the lad's face to bring the lacerated parts together. Had the bat have struck him higher up he would surely have been killed.

Last night at Needles a large building near the store of the Needles Mercantile company was destroyed by fire and the store of the Mercantile company somewhat damaged by water and smoke. The local owners of the company are pleased to learn that they met with but small loss.

This morning Jesse Tarr, in his big Buick machine, took Emerson Gee and a party of mining men to the mines recently acquired from A. L. McKesson, Maj. W. A. Mensch, O. D. M. Gaddis and W. E. Frost, near Wallapai Springs.

G. W. Beecher, who went to San Francisco a few weeks ago to visit with his children, is home again. He reports that times are very hard in San Francisco, but all the other coast towns are looking prosperous.
